It is with regret that the congregation parts with him, as during his short stay here he has made many friends both in and out of the church.—Mexico Reville.

Dixie has been played to full houses each night this week and each succeeding evening it has grown in favor with the people. Mr. Miller was run over by a team and wagon while going to his hotel Wednesday night and his right foot sustained severe injuries. Notwithstanding his pain he appeared as usual and as Mikel O'honey brought down the house.

Real Estate in Scotland county is steadily advancing in price. The prospect for securing one or two more railroads within the next year or two is flattering. The coal beds underlying this city will be fully tested within the next few weeks, and a company will be organized to develop and mine the coal. Natural gas is among the possibilities, and with the conditions in our favor we confidently expect a boom of a real and substantial character, this season.—Memphis Reville.

A correspondent gives a very simple and easily tried means of driving rats from the premises, and which he says is very effective. Take copperas, the quantity to depend upon the number of buildings or places infested; pulverized it very fine and sprinkle it in all the buildings—in fact, in every place where they have been in the habit of frequenting. In a few days, according to the writer, all the rats will be gone.

Forty-Four Years Ago.

Forty-four years ago, on the fifth day of this month, wagons and teams were crossing the river at this point on the ice. The ice was gorged opposite Glasscock's island, and in the afternoon on that day it broke loose and floated down the river. Before it broke loose the river was clear from that point south, and the steamer Boreas was making her first trip from St. Louis up. After the gorge broke, the river being full of floating ice, the steamer was driven toward the Illinois shore and plunged through the huge columns of icebergs and landed safely at the Hannibal wharf. These facts are known by many of our old citizens who refer to the year 1843 as a remarkable epoch in the history of Hannibal. We are not advised that the river has ever been blocked on the 5th of April since that time, and although we are prone to believe that the winters become more and more severe as time advances, yet if we study the chronology of events we may always find a parallel season that has passed and gone. The present year bids fair to be one of unusual prosperity and like the year of 1843, may be noted as the beginning of a new era.—Hannibal Journal.

The Verdict Unanimous.

W. D. Sult, Druggist Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of ten years standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience is Electric Bitter." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, kidney or blood. Only a half dollar a bottle at J. G. Jamison.
